56. C program that checks if a passenger is eligible for concession based on the given criteria:

```
#include <stdio.h>
Int main() {
  Char gender;
  Int age;
  // Accepting input
  Printf("Enter gender (M for male, F for female): ");
  Scanf(" %c", &gender);
  Printf("Enter age: ");
  Scanf("%d", &age);
  // Checking eligibility for concession
  If ((gender == 'M' && age > 60) || (gender == 'F' && age > 50) || age < 5) {
    Printf("Passenger is eligible for concession.\n");
  } else {
    Printf("Passenger is not eligible for concession.\n");
  }
  Return 0;
}
```
